

## Telemarketers Will Soon Be Calling Your Cell Phone

In a few weeks, all cell phone numbers will be made available to telemarketers, which means your cell phone will become a “sell phone.” In addition, YOU will be paying for their calls because they will be charged against your cell phone minutes (unless you get free incoming calls.)

If you want to register your cell phone (and your home phone as well), go to [www.DoNotCall.gov](http://www.DoNotCall.gov) and register up to three phone numbers. This will keep telemarketers from calling you for the next 5 years.

You can register over the phone by calling 888-382-1222, BUT you must call FROM the number you want to register, so you can only do one phone number at a time.

Note that when I tried to register my cell phone this way it wouldn't work, so the website might be an easier way to go.
